

please do not limit the protection i now get through indiana's attorney general's office that inacted the "Indiana's Telephone Privacy Law". since enacted and after i signed up to be protected from all the harassing telemarketing calls i have enjoyed supper time with the family and nights at home much more. the law works. please do not lessen this protection i now have! i used to get 20 calls a week and now i get maybe 1 a month!

thank you for reading this and hopefully passing it along to those who should read it. mike ridlbauer
